

## Keep On Coming

Intro:

/Bm                    /Gm                    /Cm                    /Gm                    /

/Bm                    /Gm                    /Cm                    /D                    /  
I'm

/A                    /Bm    Em   /A                    /Bm    Em   /A   D /A   /

1 tired and I'm working late, but I don't mind, I've got a date with you.

2 morrow I'll wake up feeling great, I'll spend tonight just making love with you.

/                    /Bm    Em   /A                    /Bm    Em   /G                    /

I feel OK all the time, somehow you have eased my mind the daily boredom

Deep in love, feeling high but losing you would make me die so there's just one thing your

/                    /A    /    D   /A                    E                    /B                    /

just can't make me blue.                    Keep on coming this way, your love must,

love has got to do.                    Keep on coming this way, your love must,

/A                    E                    /B                    /A                    E                    /D                    /A                    /G                    /

keep on coming this way, It's got to keep on coming this way, to me, to me, to

keep on coming this way, got to keep on coming this way, to me, to me, to

.                    last time to end  
/A    G   /A                    /

me - ee - ee.    To-

me - ee - ee.

end:

/ D#    B E /B                    F#                    /C#                    /B                    F#                    /

Keep on coming this way, your love must, keep on coming this

/C#                    /B                    F#                    /E                    /B                    /A                    /B                    A   /B                    /E    //

way. It's got to keep on coming this way, to me, to me, to me - ee - ee.
